INTRODUCING THE COMPLETE LINEUP OF
CASE IH APPLICATION SOLUTIONS.

From ground-engaging pull-type models to highly productive self-propelled applicator equipment, Case IH offers a full line of application solutions that help feed, protect and nurture crops — from start to finish and through every season.

			PREPLANT	POST-EMERGENCE	LATE SEASON	POST-HARVEST
TITAN™ SERIES FLOATERS AND APPLICATORS Built rugged with innovative design features that enhance productivity and meet the needs of professional applicators — even in the toughest and changing terrains.		***810 Flex-Air™ Applicator*** • Up to three dry and one liquid product capability • Variable rate application of each product capability • Midship-mounted booms for better application	✓			✓
		***610 Liquid System*** • 70- or 60-/85-ft. boom widths • Boom plumbing options and features to fit any operation • 1,800- or 2,000-gal. tank capacities	✓			✓
		***Dry Spinner Spreader*** • Multiple product application capability • Large hopper capacity for increased productivity • Accurately apply a wide range of granular/ dry products	✓			✓
TRIDENT™ 5550 COMBINATION APPLICATORS The industry's fastest-converting liquid/dry combination applicator on a high-clearance row crop chassis.		***New Leader® NL4500T G4 Edge Variable Rate Dry Nutrient Applicator*** • Up to four product application capability • Up to 330 cu. ft. product capacity • Simple applicator changeover process for improved ROI, productivity and efficiency	✓	✓		✓
		***Trident 5550 Liquid System*** • 1,400-gal. high-capacity liquid tank • Automated rinse option • AIM Command FLEX™ advanced spray technology for superior, consistent application	✓	✓	✓	✓
PATRIOT® SERIES SPRAYERS Case IH engineering and design are combined in high-efficiency Patriot sprayers for consistent, accurate application — regardless of terrain or season.		• Cab-forward, rear-engine design optimizes weight distribution • Four models (175 to 335 hp) • Wide range of precision ag technology options for precise, quality applications	✓	✓	✓	✓
MILLER NITRO SERIES SPRAYERS High-clearance front boom sprayers that are among the most efficient on the market today.		• Industry-leading crop clearance (up to 78 in.) • 50/50 chassis weight distribution • Product tank capacities up to 1,600 gal. • Boom options up to 135 ft.	✓	✓	✓	✓
NUTRI-PLACER® NH_3 FERTILIZER APPLICATORS Commercial-grade pull-type applicators designed for high-efficiency precision NH_3 fertilizer applications.		• Heavy-duty spring High-clearance Shank™ options • High-speed Low Disturbance (HSLD) single-disk coulter cuts without plugging • Working widths ranging from 27.5 ft. to 65 ft. • New 50-, 60- and 65-ft. HSLD configurations for maximum productivity	✓	✓		✓
NUTRI-PLACER® SIDE-DRESS FERTILIZER APPLICATORS Commercial-grade pull-type fertilizer applicators designed for precise postemergence liquid applications.		• Heavy-duty coulter design for precise nutrient placement • Commercial-grade toolbar frames for maximum life and uptime • Working width ranging from 17.5 ft. to 60 ft.		✓		
NUTRI-TILLER STRIP-TILL APPLICATORS Designed to manage crop residue, enhance soil tilth and improve fertilizer placement for maximum nutrient efficiency.		• Creates ideal berm height and shape • 24-inch coulter slices through tough residue • Deep band fertilizer with Precision Air™ 5 series air carts	✓			✓
